## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the School Board and Citizens of Marlow:

I hereby submit my annual report as Superintendent of schools.

### ORGANIZATION AND ENROLLMENT

No changes were made in the teaching positions this year.

I have each year devoted a portion of my report to a discussion of some of the aims of our general supervisory program. Previous reports have covered the phases of the program applying directly to the content and improvement of instruction. Since effective instruction is influenced also by a continuous program designed to strengthen the organization of our schools, I believe that a brief outline indicating the nature of some of this activity should be of general interest.

Instruction sheets to all teachers in the supervisory union have repeatedly emphasized the importance of maintaining a uniform standard practice in relation to the following details of school management:

1. Permanent records of personal data, attendance, and scholarship.
2. Report cards, failures, and make up work.
3. Organization and supervision of all playground activities.
4. Organization and supervision of school programs, socials, entertainments and athletic contests.
5. Exhibits of school work.
6. Conduct of school lunch program.
7. Fire Drills and safety control measures.
8. Details of class and room management.
9. Care, preservation, and use of instructional equipment and reference materials.
10. Development of school libraries and use of circulation libraries.

The report card usually results in more misunderstanding and conflicts of opinion than any other item of school management. It is not surprising that this should be so since acceptable practices for reporting to parents are many and varied. However, regardless of the form used, I believe that pupil scholastic reports have meaning and value only when they are made by the teacher and interpreted by the parent according to some definite policy which is understood and accepted by both. It has been my experience in talking with parents to find that they usually desire a fair, truthful and frank estimate of the actual quality of the work of the pupil as measured by the ability of the child and the standard for the grade. I believe also that our teachers generally have recognized their responsibility in this regard and try to mark pupils truthfully and fairly according to their best judgment. Teachers have been urged to consider the report card as a transcript of the pupil's school record and to report deficiencies consistently as they occur. Although repeated failures may indicate that a pupil would profit by repeating the grade, they are more generally caused by inattention, failure to complete assignments, or careless work. Teachers and parents should make an honest attempt to ascertain the cause of pupil failures and cooperate in some effective measures to eliminate them when possible.

In most of our schools the teachers have been very conscientious in the performance of their duties in supervising playground activity during the noon and recess periods. The informal situation on the playground affords an opportunity for wholesome pupil-teacher relations and for practical instruction in proper attitudes and group conduct.

Last year many of the schools in the supervisory union conducted school programs and exhibits designed to demonstrate school work and pupil performance. Programs of this nature are very much worthwhile. They tend to promote interest and cooperation and are worthy of the encouragement and support of the community served by each school.

The purchase of a piano has greatly improved the facilities for instruction in music. Marlow is fortunate in having two teachers who are qualified by special preparation to teach music. Although the piano is located in the Primary Room it is available for use by both groups.

#### ENROLLMENT, JANUARY 15, 1941

Total,	4	7	7	2	6	4	5	1	36

Two deliveries of surplus food commodities were made to the school during the year. Apples, oranges, raisins, and canned peaches were used to supplement lunches brought from home. It is expected that this program will be continued. One shipment of foods has been received at the school this year.

#### HEALTH

Health inspection in Marlow showed the following defects:

37 pupils were inspected.

3 pupils were underweight.

5 pupils showed poor posture.

30 pupils were in need of dental care.

4 pupils were recommended to have throat and nose examination by a physician.

A dental clinic was held October 7, 1940.

Number of pupils treated,	15
---------------------------	----

Total number of cleanings,	13
----------------------------	----

Total number of extractions,	6
------------------------------	---

Total number of amalgam fillings,	16
-----------------------------------	----

Total number of porcelain fillings,	12
-------------------------------------	----

The bill for this work was paid by the parents of pupils having work done.

1 pupil had special eye examination.

1 tonsil case was treated.

### BUILDING AND EQUIPMENT

The classroom ceilings were painted.

The desks in both rooms were repaired by inverting the tops, building new shelves, and rebolting where necessary. The desks and chairs in both rooms were varnished.

Gravel was applied around the building and leveled to improve the surface drainage.

A piano was purchased.

The curtains on the windows of the class rooms have added very much to the general appearance and comfort.

The Marlow school building is now in excellent condition.

### STATISTICAL REPORT 1939-1940

Total registration,	51
Average membership,	44.96
Percentage of attendance,	94.35
Cases of tardiness,	78
Visits of superintendent,	44
Visits by citizens and others,	71
Number of pupils not absent or tardy,	1

The improvement in the attendance and tardiness record is commendable. Although the total registration is slightly less than last year, the average membership is substantially higher. This indicates a more stable enrollment during the year.

I wish to thank the members of the School Board, teachers, parents, and pupils for their cooperation during the year.

Respectfully submitted,

CHARLES D. DALZELL,

Superintendent of Schools.
